Sketch Up

PROFILE

Elizabeth is currently pursuing a degree in Computer Science at SMU, as a recent graduate from Temasek Polytechnic's Design School Elizabeth has honed her artistic skills and seeks to further improve her technical skills to produce high-quality design and tech solutions in the future. In her spare time she enjoys reading up about tech and learns new ways to incorporate it into daily lives,as an EXCO member of SMU Blockchain club she seeks to gain more insights on blockchain and its various uses. She loves working in teams and dynamic environments and is currently looking for a summer internship role!

COURSES

Python3: Project based python,Algorithms,Data structures
Udemy
UC-e5f101a0-09e2-4a53-82bc-41f4640c414d

Data Structures and Algorithms : Deep Dive using Java
Udemy
UC-e0f53101-5654-4f3b-be05-a1f68769c45f

Augmented Reality (AR) Mobile App Development
Tertiary Courses
CRS-N-0040687

PROJECTS

SMUX Membership Management System (SMUX-MMS)

an intuitive cloud-based software that streamlines membership and participation in all SMUX-related activities. Through the adoption of Telegram's Bot API, SMUX-MMS significantly improves accessibility and flexibility for membership management.Together with 3 other Computer Science students we embarked on a project to create a bot which facilitates and simplifies the processes of sign-ups for the members and Organising Committee of SMUX (smuXploration club)

https://github.com/SMU-Computer-Science/SMUX-MMS

EDUKUEH! Interactive primary school tuition app (Wireframes)

Against the backdrop of COVID-19 precautionary measures, primary school students struggle with the hasty transition from traditional classes to home-based learning.The solution is a simple and intuitive mobile application for kids aged 6-12 which acts as a conglomeration of different educational platforms for home-based learning.The app was extensively revised with various surveys and web experiments using UIUX tools such as loop11, adobeXD

Currently implementing a webpage
